**National Quality Center (NQC)**

# H4C Background

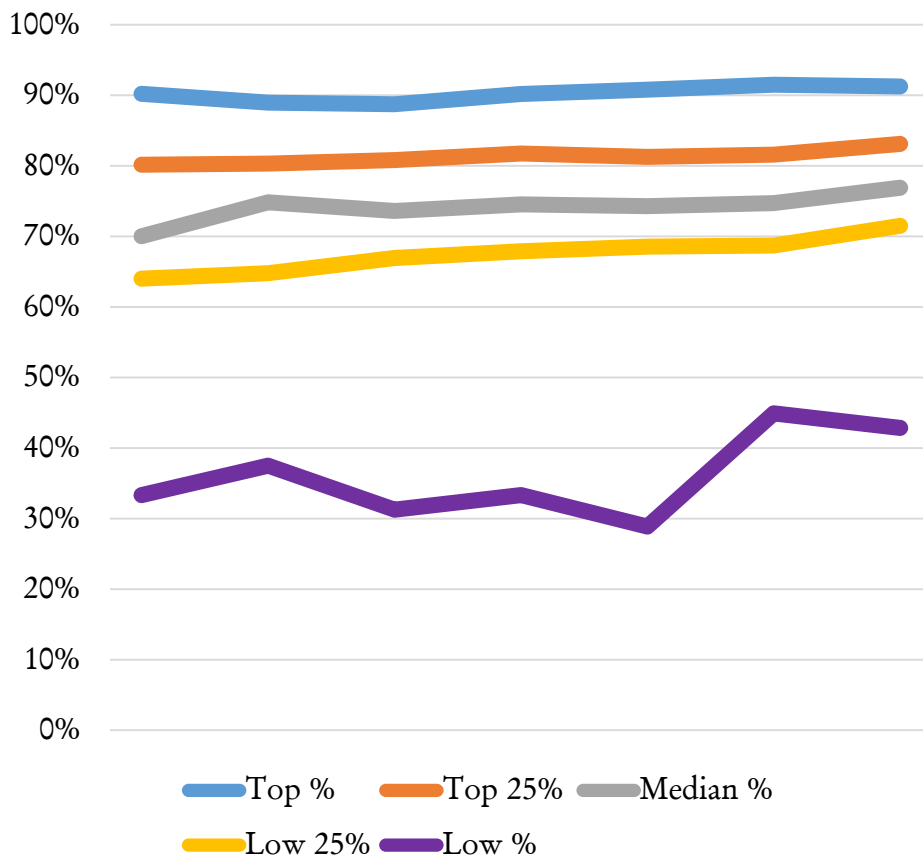

- 9/2013 – 12/2015 using IHI Breakthrough Series Model
- H4C Aims:
  1. Build statewide capacity for closing gaps across the HIV Care Continuum
  2. Align QM goals across RWHAP funding streams to jointly meet legislative mandates
  3. Implement QI activities to advance quality and coordination of HIV care
- H4C National Outcome Goals:
  1. Viral Load Suppression (VLS) – ↑ 20% to 79.44% (2,270 PLWH)
  2. Retention – ↑ 20% to 83.52% (3,022 PLWH)
- H4C QI Activities:
  1. 4 HIV Care Continuum measures, w/disparity analysis
  2. VLS non-suppression cohort
  3. Development of statewide HIV Care Continua
  4. Implementation of quality improvement strategies

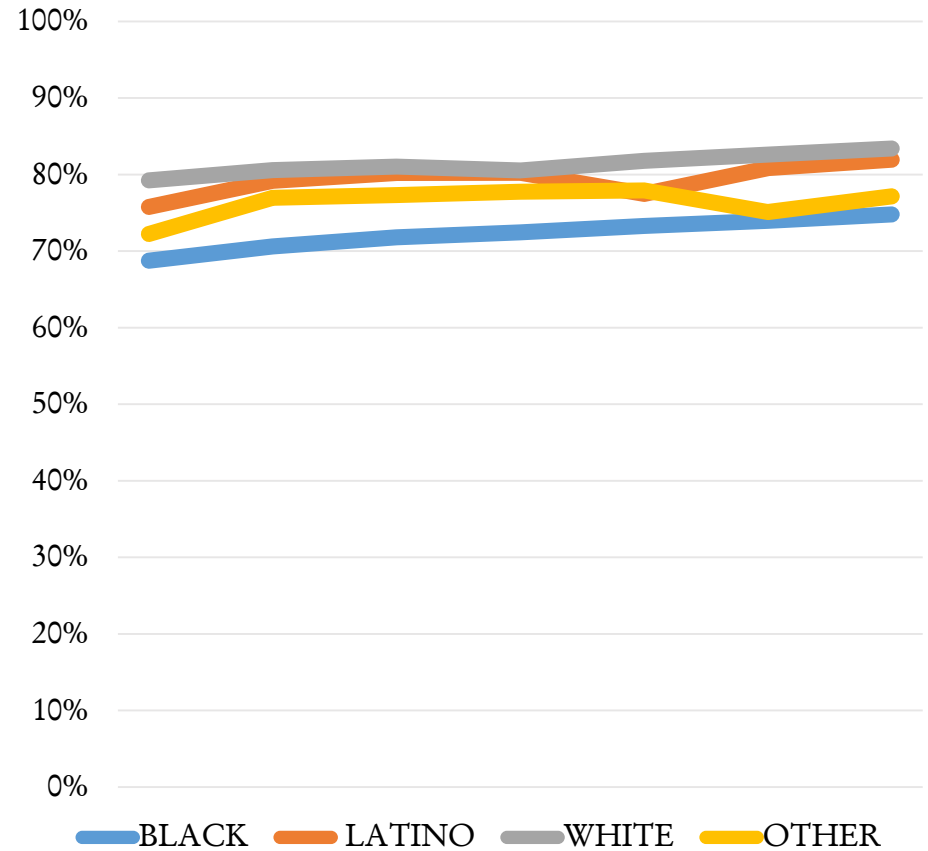

**PRIORITY**

# H4C Performance Measures Results

VLS Interquartile Range H4C  
Rounds 1-7

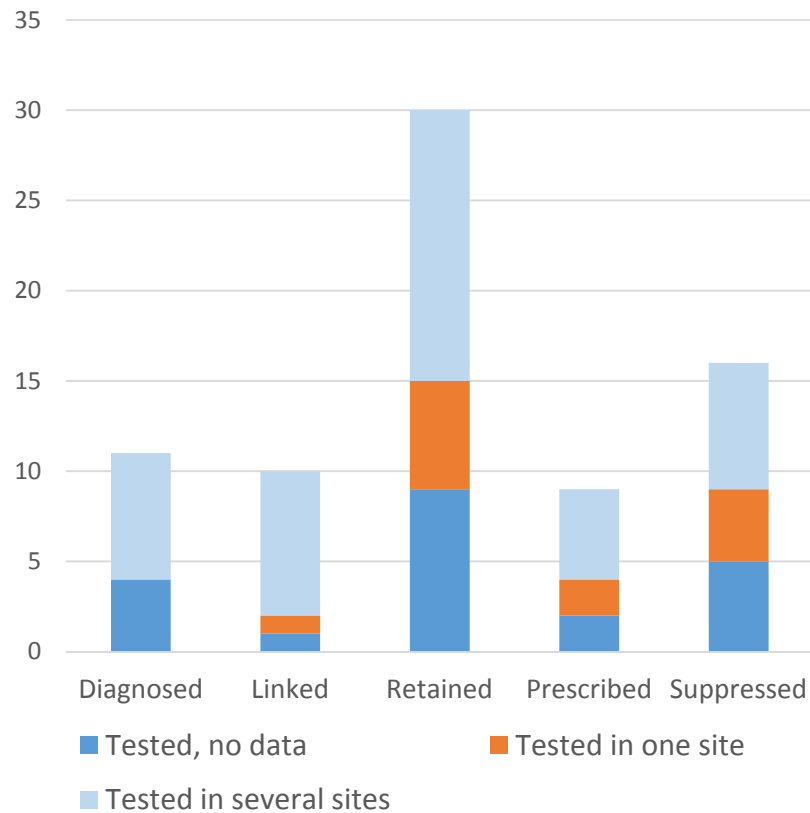

VLS by Race Overall H4C  
Rounds 1-7

# H4C Improvement Interventions to Date

Improvement Interventions Developed Across the HIV Care Continuum

States & Interventions Along the HIV Care Continuum
