New Orleans, Louisiana

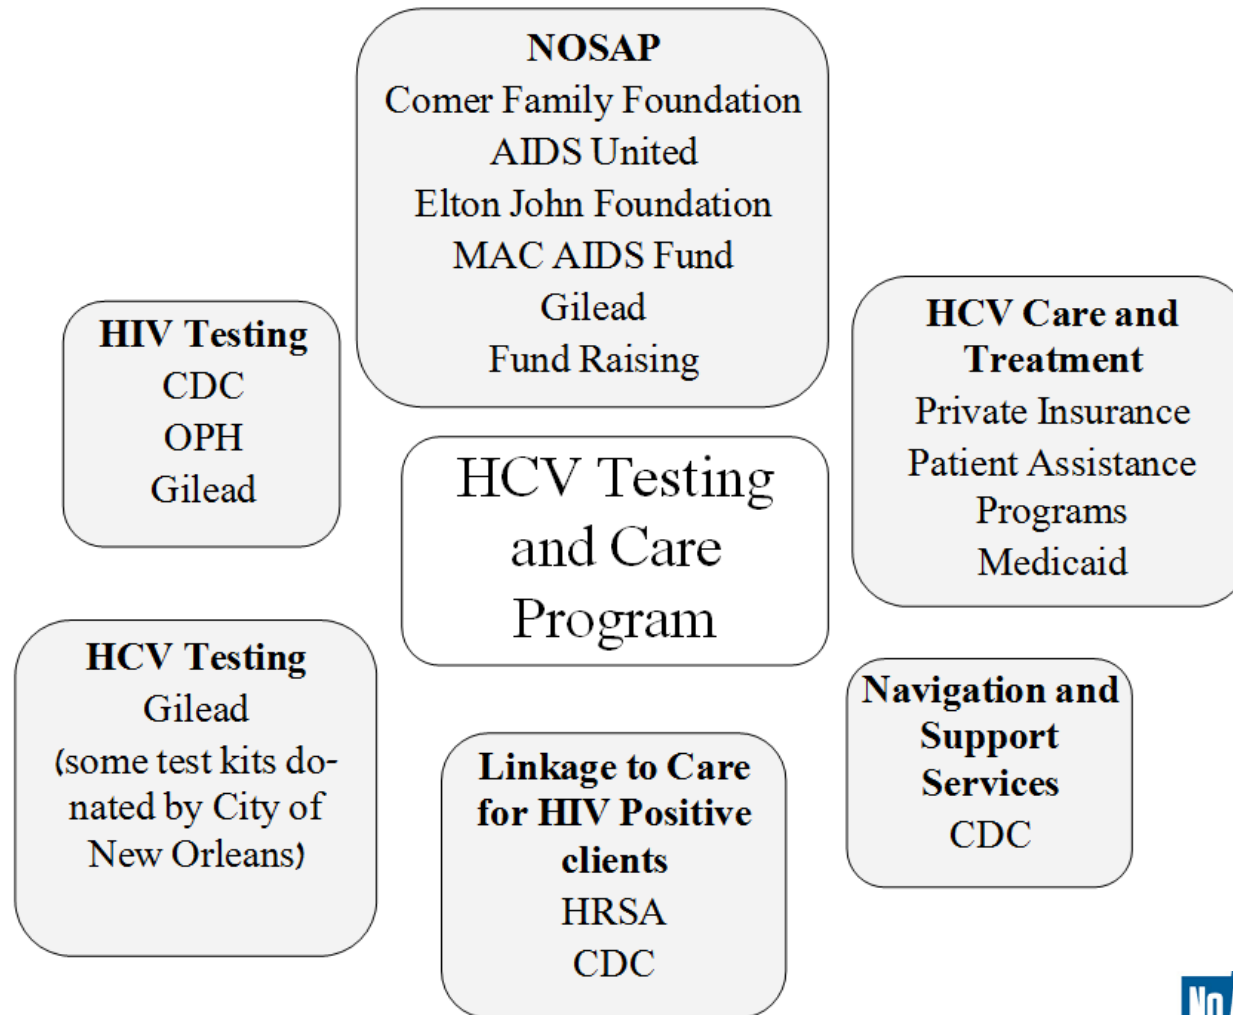

# NO/AIDS Task Force d.b.a CrescentCare

- NO/AIDS Task Force was founded in 1983 and is one of the oldest and largest AIDS Service Organizations in the Gulf South
- Quickly reorganized after Katrina and grew continuously from a staff of under 20 in 2005 to over 225 in 2015 as agency transforms into full-functioning FQHC
- Prevention, one of the smaller departments of the agency, performed over 5,000 rapid HIV tests in 2014 with 90% linkage to care rate, distributed over 500,000 condoms through various programs, and distributed over 300,000 clean syringes
- Need for more services still remains, including HCV testing and linkage to care

# How We Make It Work

# Results & Opportunities for Improvement
