

3rd Paris NASH Symposium

French-US Meetings

July 6 & 7, 2017

Institut Pasteur - Paris

Organized by
Arun Sanyal & Lawrence Serfaty

Virginia Commonwealth University School of Medicine, Richmond, Virginia, US
Hôpital Saint-Antoine, APHP, Inserm, Université Pierre & Marie Curie, Paris, France

With the partnership of

Welcome to Institut Pasteur!

Stanislas Pol, MD, PhD

Liver Department, Hôpital Cochin

*Inserm U-1213 & Center for Translational
Science, Institut Pasteur*

Université Paris Descartes, Paris, France

Institut Pasteur: a research institute

4 missions to serve scientific progress and health

- **Research**
 - An international research institute of excellence in medicine, clinical research and public health
- **Health and public health**
 - A mission of public health with (15 CNR et 9 CCOMS) at national and international levels (health watch, alerts and interventions)
- **Education**
 - A teaching and training centre
- **Research applications**
 - Technology transfer and industrial relations

Institut Pasteur: a research institute

An original economic model: *Independence in*

research directions and reactivity

The Institut Pasteur is a nonprofit organization and relies on the generosity and support of the public to carry out its research programs.

€88.2 M

Research contracts and agreements

€39.6 M

Industrial royalties

€18.1 M€

External services

€145.9 M

Revenue from own activities

49.2%

€33.3 M

Donations

€17.3 M

Legacies

€1.2 M

Apprenticeship tax

€35.3 M

Revenues from assets

€87.1 M

Public gifts & donations and revenues from assets

29.4%

€54.8 M

French Ministry of Research

€3.5 M

French Institute for Public Health Surveillance (InVS)

€58.3 M€

Government contributions

19.7%

€296.4 M

Current income in 2014

€5.1 M

€5.1 M

Other income

1.7%

Institut Pasteur: a research institute

- Pr Christian Bréchet
 - Director of IP: 2013-2017
 - EASL secretary
 - Very famous Hepatologist:

HBV:

first genomic diagnosis (Hybridotest)

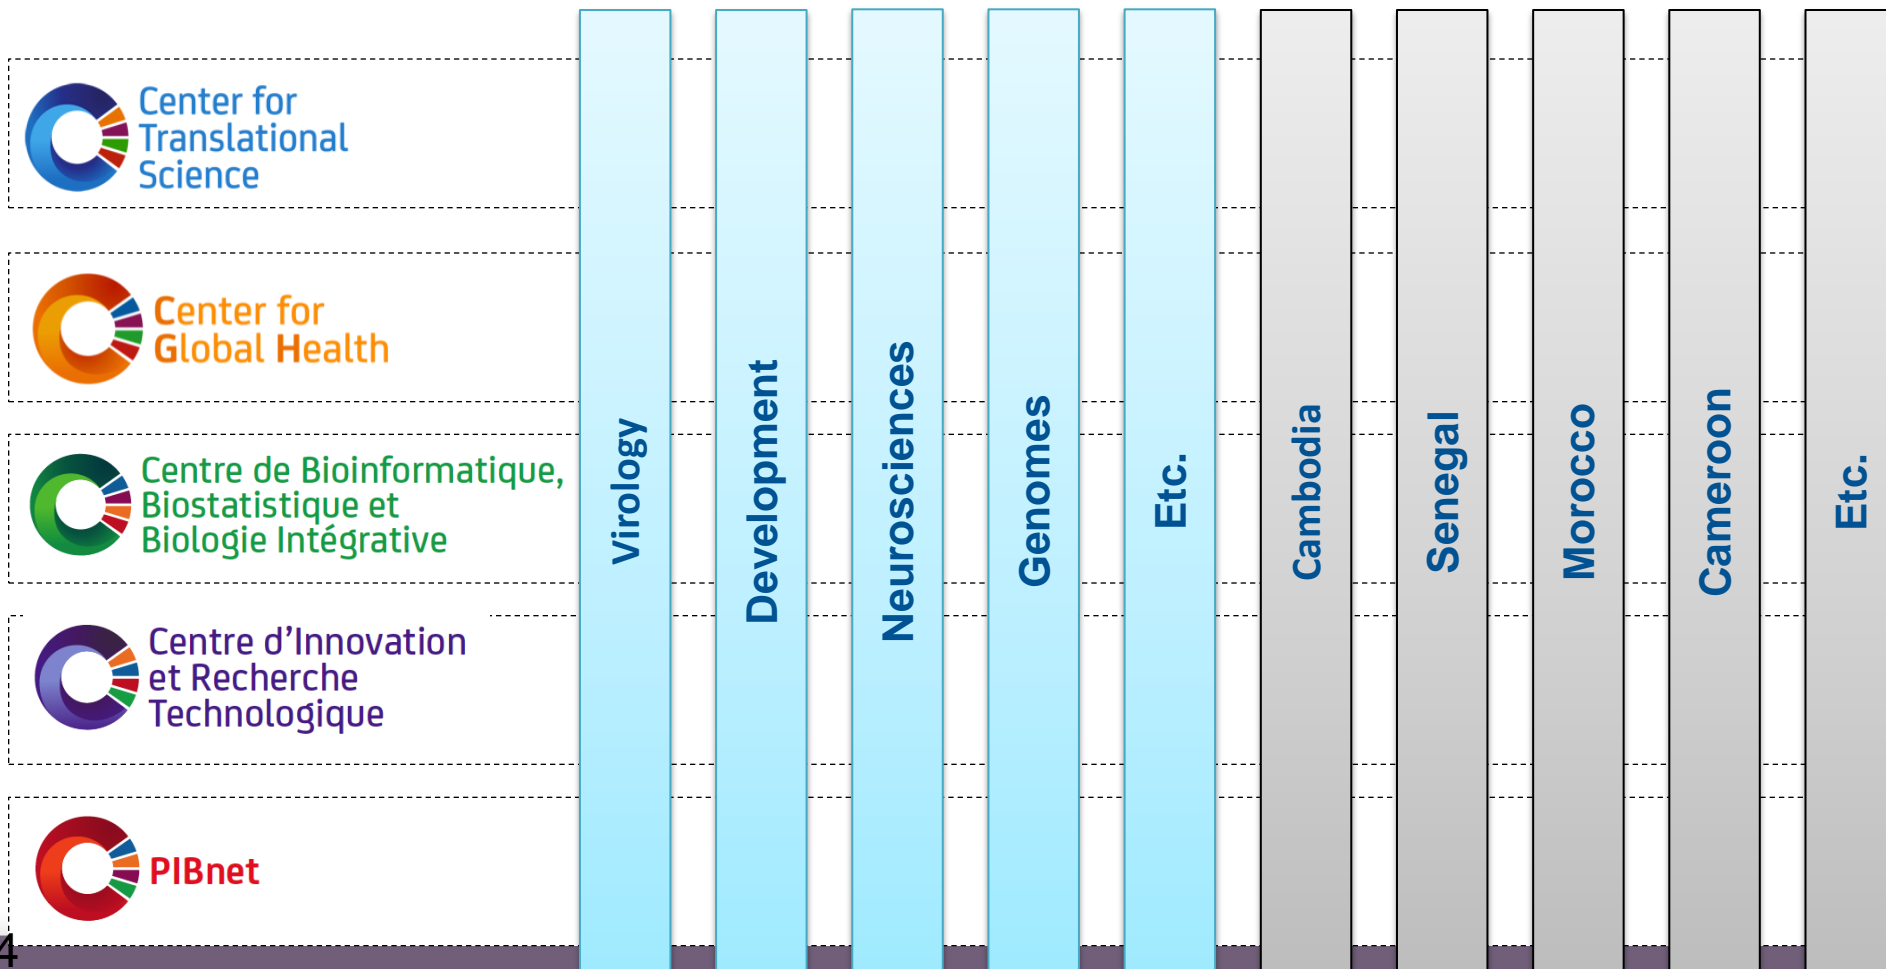

first demonstration of direct
hepatocarcinogenesis

Institut Pasteur: a research institute

2015 : Creation of transversal centers

11 departments in Paris

33 institutes in the Network

Institut Pasteur: An international institute at the very heart of Paris

11 scientific departments

130 research units

2,500 employees
650 scientists

4 transversal research centers

1,000 Ph students and postdocs per year

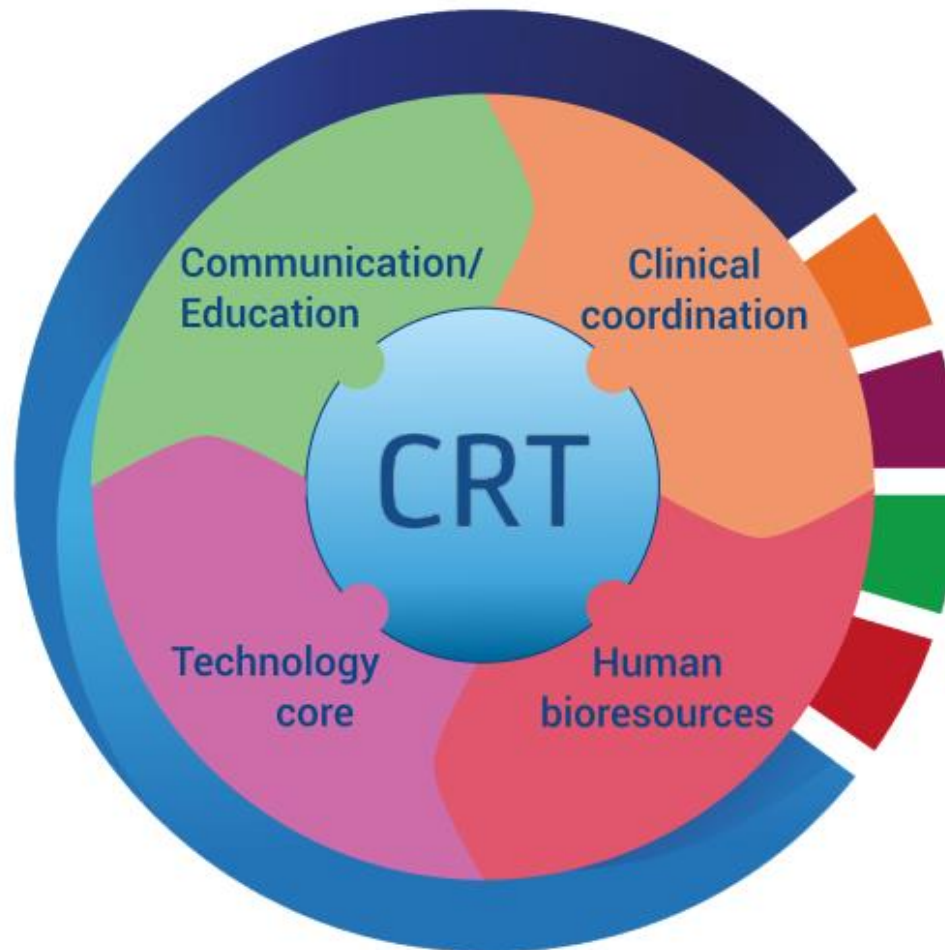

14 technological platforms

A 55,000 m2 campus

more than 60 nationalities

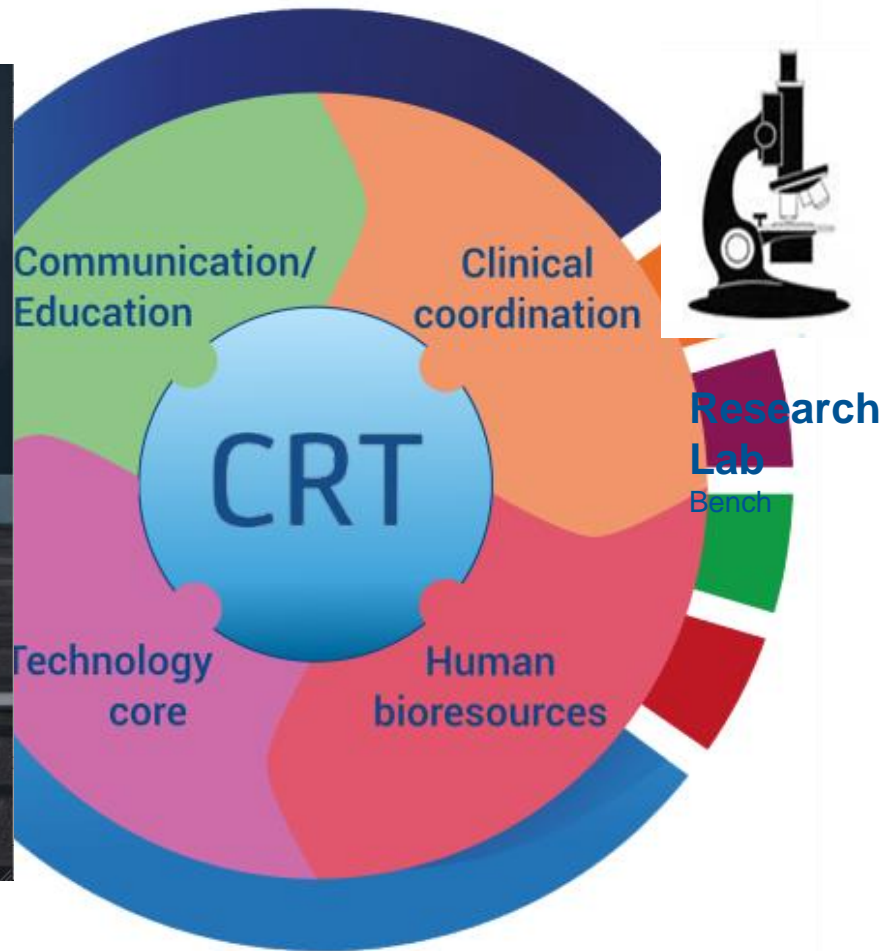

Center for translational science

An integrated view of translational research: « guichet unique »

Translation

**Hospital
Bedside**

Center for translational science

Clinicians, researchers, industrials

Centre Médical de l'Institut Pasteur

Affiliated hospitals

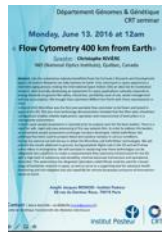

Center for translationnal science

JRT

Rassembler les acteurs de la rech. translationnelle

1/an (200p)

Séminaire techno (CRT-TC)

Informersur les nouvelles technologies

8/an (8p)

Matinales (CRT-CC)

Informersur la recherche clinique

5/an (30p)

¼ h Med

Donner une culture médicale aux chercheurs

20/an (50p)

¼ h Science

Faire connaître la recherche de l'IP dans les hôpitaux

5/an à l'hôpital (10p)

Breakthrough session

Faciliter de nouvelles collaborations avec le réseau

1/an (100p)

Storm

Rassembler médecins et chercheurs sur une thématique

1 ou 2/an (40p)

Patients et chercheurs (avec CRT-IB)

Réflexion sur la place des patients dans la recherche

1/an (80p)

Évènement social

Créer des liens entre médecins et chercheurs

1/an (50p)

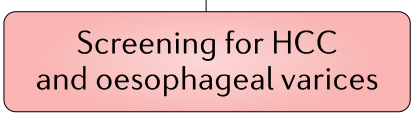

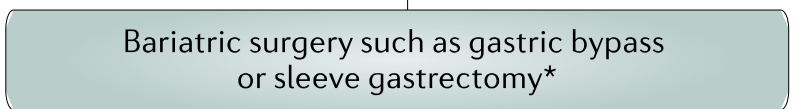

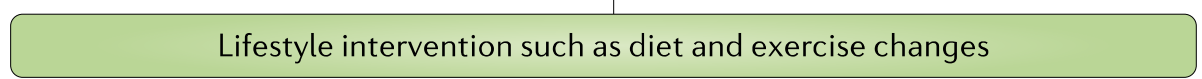

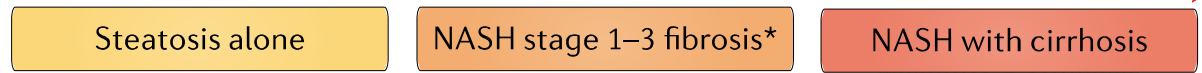

NASH: A multidisciplinary translationnal topic

- Hepatologist/Endocrinologist/Cardiologist/Nutritionnist/Surgeons...
- Scientists of liver disease, metabolism pathways, imaging...

NASH: A multidisciplinary translationnal topic

- Hepatologist/Endocrinologist/Cardiologist/Nutritionnist/Surgeons...
- Scientists of liver disease, metabolism pathways, imaging...

Unmet needs

- Noninvasive diagnosis of NASH
- Biomarkers of progression of fibrosis
- Combination therapies
