HCV TREATMENT RESPONSE DATABASES

HCV DRAG#8

TREATMENT RESPONSE DBS

- What data is being collected?
 - Level of detail
 - Frequency
 - Follow-up
- Value of harmonizing for purposes of collaborative analyses?

EXAMPLE: HIV/HCV CO-INFECTION

- IWHOD (International Workshop on HIV Observational Databases) initiative (Juergen Rockstroh)
 - E.g.
 - ◉ Canadian Coinfection Cohort;
 - ◉ ANRS C013 HEPAHIV
 - Facilitate data exchange and collaboration
 - Develop list of useful parameters
 - ◉ Minimal list
 - ◉ More detailed list
 - ◉ Specific for DAA treatment
- Encourage attendance at 17th IWHOD (2012)
