

HCV DRAG Definitions Working Group DNWG

This group was conceived at the 5th HCV DRAG meeting in Boston, 2010 is a collaboration between the HCV DRAG, IDSA, EASL and AASLD and will help bring uniformity and clarity to the terms and definitions currently being used in DAA clinical trials. Since the DAA trials field is in its infancy, the WG will regularly update these terms as the field evolves. A manuscript regarding this topic is currently being drafted.
