

The Forum HIV Prevention Trial Design Public Meeting Series

PART 1

Transitioning to External Control-Based Trial Designs

TOPICS FOR INFORMATIONAL SESSIONS

- Past trials, potential options for the future designs & acceptability of the external control approach to estimate the counterfactual
- Meeting for PrEP and PrEP trial design stakeholder groups
- Region-specific meetings based on needs: Eastern Europe, Africa, Latin America

TOPICS FOR ROUND TABLE SESSIONS

- How to transition from conventional to external control trial design
- Factors to be considered during trial design
- Trial planning: successes and failures

PART 2

Post-Trial Marketing, Access & Sustainability

TOPICS FOR ROUND TABLE SESSIONS

- Post-trial access and sustainability of the products
- Post-marketing data

PART 3

Incorporating Community Input

TOPIC FOR ROUND TABLE SESSIONS

- Using community input during design and implementation
